Hello,

It is my honor to recommend the student Dafna Galeen. I met Dafna when she was a second-semester (2020) student as one of the students in my Technological workshop in the Faculty of Architecture and Town Planning in the Technion Hifa.

Dafna demonstrated a deep flow in the materials studied and knew how to bring a fresh and critical point of view, personally in every discussion, while deeply establishing herself in the development of her personal project. Her ideas indicated high abilities of observing the whole and the details and the connections between them.

Throughout the semester, Dafna worked very diligently while deepening and examining essential to the development of details and understanding of materials.

I met Dafna for the second time in the third year (2021) of her studies, this time in the history and theory of architecture course in the 20th century. As last time, Dafna was a curious student with high motivation and a desire to deepen and enrich her knowledge.

That is why I highly recommend Dafna as a wonderful, sensitive and people-oriented student. There is no one more deserving of being accepted into excellent graduate degree programs. Re: Reference Letter for Ms. Dafna Galeen

I had the pleasure of teaching Ms. Dafna Galeen at the First-Year design studio in the Faculty of Architecture and Town Planning at the Technion – Israel Institute of Technology.

Dafna has a very positive attitude, and she has constantly devoted herself to rethinking and developing her project while sincerely striving to expand her design and representation tools.

During the design process, Dafna used external sources, such as readings, to address the design concerns she faced.

Along with an exceptional working ability, self-discipline, and a notable talent for design Dafna has reached outstanding achievements in the studio. Her project was original, creative, and convincing in its expression.

Alongside all this, Dafna contributed to the group discussions that took place in the studio.
